CTL

Car Technical Log

PARTNERSHIP BRIEF

Are you giving your car the attention it needs?

CTL (Car Technical Log) is a mobile app that turns scattered receipts, mental notes, and forgotten renewal dates into one organized digital record for every vehicle. From a single family car to an entire fleet, CTL keeps a complete, exportable service history — so nothing important is ever missed. The app is live on the App Store with full English and Arabic (RTL) support.

What CTL does

- **Maintenance & service logging**
  Repairs, oil changes and scheduled services with cost, mileage, shop details and next-due dates.
- **Renewal tracking**
  License (registration) and insurance expiry, with quiet reminders 30, 7 and 1 day ahead.
- **Reports & export**
  Generate full vehicle history as a clean PDF or CSV — ideal for resale or audits.
- **Technical fault log**
  Log breakdowns and damage with a visual dashboard warning-light selector and message tracking.
- **Fuel & cost analytics**
  Track fill-ups, efficiency (L/100km or MPG) and total spend per vehicle.
- **Fleet management**
  Unlimited vehicles under one dashboard, with a nearby service locator and document storage.

Why it matters

Missed services and lapsed registrations cost money, reduce resale value, and create risk. CTL acts as the "central nervous system" for vehicle health — moving car upkeep from paper and memory to a structured, reminder-driven log that owners and managers actually keep up with.

Who it's for

Car owners

Enthusiasts and everyday drivers who want a flawless, complete service history for their vehicles.

Fleets & businesses

Owners and managers tracking many vehicles, due dates and costs from one dashboard.

Workshops & dealers

Service providers who benefit from organized vehicle records and customer history.

Where we are

Business model

Free — **$0**
Up to 2 vehicles · core logging · reminders · nearby services

CTL Fleet (Premium) — **~$2.99/mo · $19.99/yr · $24.99 lifetime**
Unlimited vehicles · fuel & cost analytics · PDF/CSV export · all tools

Enterprise — **Custom**
Multi-user access and centralized dashboards for dealerships & workshops

Subscriptions handled in-app; pricing shown is representative and may vary by region.

Partnership opportunities

1. **Distribution & bundling**
   Offer CTL to your customers — insurers, dealerships and auto retailers bundling vehicle care.
2. **Fleet & workshop integration**
   White-label or co-branded fleet tracking and service-history tools for B2B clients.
3. **Regional expansion**
   Native Arabic + RTL makes CTL ready to scale across MENA markets with local partners.

Let's build vehicle care together.

We're open to distribution, integration and regional partnerships. Reach out to explore how CTL fits your customers and roadmap.
